Where do you get your NPR?  
I get mine on BUR  
For analysis and in-depth news  
BURs the one to choose

Morning Edition starts my day  
The BBC takes me away  
Here at home and around the globe  
There's nothing BUR won't probe  
Where do you get your NPR?  
I get mine on WBUR

Culture, science, politics  
Why things break and how they're fixed  
Considering all things is the key  
And BUR's all things to me  
Where do you get your NPR?  
I get mine on WBUR

Radio Boston's local take  
Stirs memories of a Hilltop steak  
On Point makes me stop and think  
Meghna's always with her guests in sync

*Terry Gross brings such fresh air  
With Tonya they make quite a pair  
Here and Now with Robin Young  
Deepa Fernandes and Scott Tong  
Where do you get your NPR?  
I get mine on WBUR*

BUR is smart and fair  
Infotainment makes me scared  
Supporting public radio  
It's the only way to go (OH)  
Where do you get your NPR?  
I get mine on WBUR

We are all Onomics freaks  
On science Friday we're all geeks  
When we can't listen here and now  
Podcasts are for when time allows

*Engaging experts analyze  
Driveway moments hypnotize  
Touching stories bring a tear  
Others make us stand and cheer.  
Oh where do you get your NPR?  
I get mine on WBUR*

Every day I'm known to say  
I heard on BUR today  
The most amazing show about...  
yea I'm a fan there is no doubt

That makes I think, "What can we do  
To keep these programs coming through?"  
Wait wait don't tell me, I can guess-  
When they ask for pledges we'll say yes!
